

Productivity and Wireless Connectivity for True Enterprise Mobility

The new Sharp Zaurus SL-6000 has been specifically designed for Enterprise class mobility by incorporating a large 4" VGA resolution display, wireless connectivity, and a QWERTY keyboard in a small, durable and stylish design.

The Zaurus SL-6000 incorporates industry standard Linux and Java environments to provide a high performance, reliable, secure and extensible platform optimized for time-to-market development of mobile enterprise applications to increase business productivity. Integrated dual CF and SD expansion slots, USB host controller, and optional CF expansion pack provides flexibility to expand the SL-6000 for specific business applications.

Combined with IBM's Websphere solution, the Zaurus delivers a complete end-to-end solution for Enterprise mobility.

Dual Mode VGA Display

- Large 4" 640 x 480 VGA CG Silicon display for viewing full web pages, spreadsheets, documents, or email
- Bright transfective screen technology for use indoors or outside in direct sunlight, and reduced power consumption
- Dual portrait or landscape modes for user choice when viewing web pages, spreadsheets, photos, videos, etc.
- User configurable zoom levels

Built-in Wireless Connectivity

- Integrated 802.11b for fast wireless access to corporate data, email, or the Internet
- Wireless synchronization with Microsoft® Outlook®
- User configurable wireless profiles for easy wireless connectivity at work, home, or on-the-go

Secure and Durable

- Entire file system including personal contacts, documents, and applications are securely stored and backed up in 64M of Flash Memory protecting data and programs when the battery runs low
- Stylish two-tone design with chrome accents is elegant for mobile office use, and also durable to withstand up to a 1m drop

Extensible Platform

- Ideal platform for developing customized mobile enterprise applications based on industry standard Linux and Java environments
- The speed and performance of the Linux platform delivers exceptional performance of Java applications
- Incorporates industry leading, fully compliant Java virtual machine that delivers excellent performance and reliability
- Numerous open source development tools and resources for fast time-to-market development of mobile applications

Flexible Expansion

- Dual integrated CF and SD slots for simultaneous addition of peripherals and memory
- USB host controller
- Add an additional CF slot and expand battery life with optional CF Expansion Adaptor

Mobile Office Productivity

- Fast and easy input using built-in innovative QWERTY keyboard with space saving slide cover
- Send or receive email with attachments using POP3 or IMAP4
- Fast Opera 7 web browser supports XHTML 1.0, HTML 4.01, 128-bit SSL, and subset of JavaScript 1.5
- Create, view or edit Microsoft Word documents and Excel spreadsheets
- View Microsoft PowerPoint presentations
- Synchronize PIM suite (Address book, Calendar, To Do, Notes) and email with attachments with Microsoft Outlook

Product Specifications

OS	Embedded Linux with J2ME CDC / Personal Profile
Display	4" 640 x 480 CG Silicon transfective TFT 65,536 colors
Wireless	Integrated 802.11 b
Keyboard	37-key QWERTY keyboard with slide cover
Memory	64 MB SDRAM; 64 MB Flash (approximately 27 MB available)
Expansion Slots	1 Type II CF slot; 1 SD slot
Battery	Removable 1500 mAh Lithium polymer
Input/Output	USB 1.1 host connector (mini type A), Ir port (IrDA, 115kbps), 2.5mm stereo headphone/headset jack, docking cradle connector, 80-pin expansion connector
Size (w x h x d)	3.14" x 6.22" x .80"
Weight	7.1 oz.
Accessories	CF expansion adaptor model #CE-JC2; 1500 mAh lithium polymer battery model #EA-BL09
